

# Obtaining a Logon with EKCSRA

This is actually pretty easy and I will explain it step by step.

Step 1: Go to the State Referee Committee Website at [www.wasrc.org](http://www.wasrc.org)

The screenshot shows a Windows Internet Explorer browser window displaying the Washington State Referee Committee website. The address bar shows the URL <http://www.wasrc.org/>. The browser's menu bar includes File, Edit, View, Favorites, Tools, and Help. Below the menu bar is a search bar with the text "Quick Search [F3]" and a search button. The browser's toolbar includes the Google logo, a search bar, and various icons for search, home, and favorites. The website's header features the Washington State Referee Committee logo, which is a soccer ball with a referee's whistle, and the text "WASHINGTON STATE REFEREE COMMITTEE". The main heading of the website is "Washington State Referee Committee" in a large, blue, serif font. Below the heading, the text reads: "You have reached the **Washington State Referee Comm** 2008 at 12:05pm PDT. We are the official USSF affiliated the state of Washington and are responsible for the admini Program for Referee development, including [Registration](#), [Assessment](#) within the State of Washington in the northwes United States." A sidebar on the left contains a list of navigation links: Information, Administration, Assessment, Instruction, Registration, Youth, and Logon. The "Logon!" link is highlighted in green. The main text continues: "Logon! This Site should be thought of as a never ending p reflects the SRC's operations. Thus, while much of production mode, there are also areas that we are working enhance. Check back with us periodically and watch for inc announcements, etc. under **What's New?** at the right of thi for when new functions come available."

## Obtaining a Logon with EKCSRA

---

**Step 2:** Click **Logon** and enter your First Name and Last Name (you can skip the Middle Initial) and your password.

Identify Yourself	
Name	<input type="text"/>
Password	<input type="password"/>
Action	<input type="button" value="Logon"/>

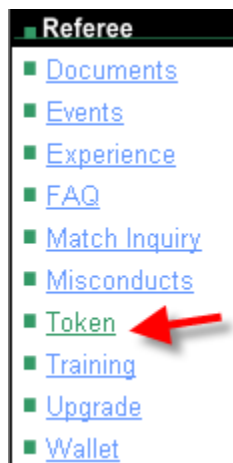

### Forgotten your Password?

If you have previously logged on from the system you are using, you can use the [Reset Password](#) function to reset your Password. If you've never logged onto the SRC and have not received a WELCOME message click on [WELCOME!](#)

As noted in the WELCOME hyperlink above you may need to contact your local ARA (the person who registered you), to obtain a WELCOME message with your initial password. Normally this is done automatically when they register you.

IF this is your first time logging onto the SRC then you will need to answer several questions that can later be used for the Reset Password function should you forget your password in the future.

**Step 3:** After logon click on the **Referee** Segment on the left side of the screen.

Here you will click on **Token** which will allow you to create your EKCSRA Logon.

you can authorize the SRC to make your basic SRC [Profile](#) information (your USSF#, USSF Grade, License Status, Mailing Address, Email addresses, etc.) available to a participating [Referee Chapter](#) Site by clicking "Generate Token" below.

This **Token** (a randomly generated 10 character string) will be available for approximately 2 hours, at which time it will expire automatically. Thus, to make use of it, you will need to provide it to the Chapter before expiration. If you've got questions about the use of this Token at a specific Referee Chapter, please contact the Webmaster for the Referee Chapter of concern.

# Obtaining a Logon with EKCSRA

Step 4: Click on **Generate Token** (this token will be available for approximately 2 hours)

[Sessions](#) | [Registrations](#) | [Users](#) | [Registration](#) | [Clinics](#)

A new Postings Entry #3761 has been added

The following Token is now available for use on the Chapter Site for the next 2 hours

820lh3Sq0Q

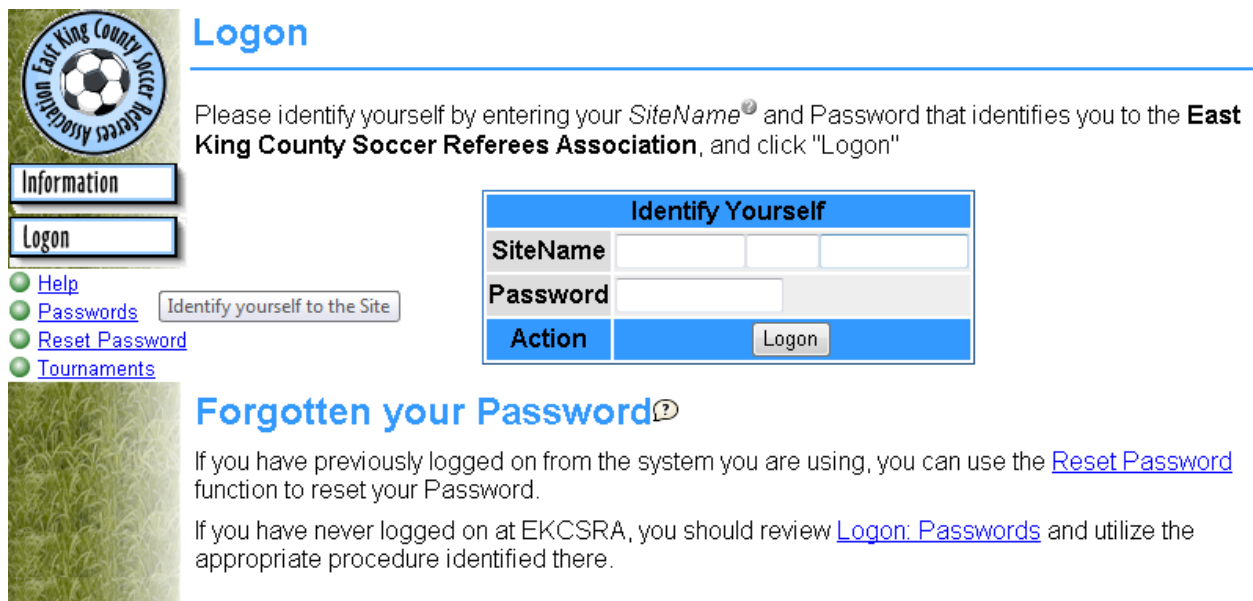

NOTE: The **Token** is upper and lower case sensitive and must be entered into the Chapter site exactly as you see it here (we recommend you Cut and Paste it, assuming your desktop environment permits the functions).

Or, if the Chapter Site you are intending to use the token with is defined below, simply click on the applicable hyperlink to perform the identified task:

1. [EKCSRA](#) → (Register for participation as a Referee)
2. [IESRA](#) → (Register for participation as a Referee)
3. [SeattleRefs](#) → (Register for participation as a Referee)
4. [SKCSRA](#) → (Register for participation as a Referee)
5. [TriCitySRA](#) → (Register for participation as a Referee)

Now at this point there are 5 Referee groups participating in this automated mechanism. EKCSRA is listed first so simply click on the **EKCSRA** hyperlink and your EKCSRA Logon will be created. Do this only once or you will get a message that says you already have an EKCSRA logon. Clearly, if you already have an EKCSRA logon you will get this message as well.

Step 5: now logoff and go to [www.ekcsra.org](http://www.ekcsra.org) and logon.

**Logon**

Please identify yourself by entering your *SiteName* and Password that identifies you to the **East King County Soccer Referees Association**, and click "Logon"

Identify Yourself	
SiteName	<input type="text"/>
Password	<input type="password"/>
Action	<input type="button" value="Logon"/>

**Forgotten your Password?**

If you have previously logged on from the system you are using, you can use the [Reset Password](#) function to reset your Password.

If you have never logged on at EKCSRA, you should review [Logon: Passwords](#) and utilize the appropriate procedure identified there.

Again, enter your First name and Last Name and password (it is the same (at this point) as your SRC password).

Step 6: at this point you will be asked several questions to activate the Reset Password for EKCSRA as we are different WEBSITE than the SRC. You will also be presented with two Agreements to "agree to". Once you agree to them you will have access to the Referee Segment and all of its function.
